The new home of the meat market is ideally situated for that business. It is convenient to the people as a whole, and is just the right size for a stand of this kind. The building has been screened throughout and is nicely fitted up.

Poor Dog.
So often we call a man a dog when we wish to reproach him.
And yet a dog—
Doesn't lie,
Doesn't swear,
Doesn't cheat,
Doesn't drink,
Doesn't smoke,
Doesn't swindle,
Doesn't flirt,
Doesn't borrow,
Doesn't pretend
And wouldn't even resent it if you called it a man.—Life.

Took His Nerve.
"It's up to me to get a new gag. I told that lady in the cottage that I used to travel with a circus."
"I suppose she got off that old chestnut by giving yer an ax and asking yer to do de split?"
"No; she had a new one. She gave me a saw and told me to saw up a cord of wood and den de fresh sawdust would remind me of de circus rings."—St. Louis Globe-Democrat.

A Much Needed Boon.
"I am working on an invention that will, I think, be the greatest boon mankind could have."
"Will it reduce the cost of living?"
"No, but it will make it impossible for people in other parts of the house to hear those in the boxes talking while operatic performances are going on."—Chicago Record-Herald.

W. I. C. Notes

The monthly meeting of the Improvement Club was held Thursday evening July 6th in the school room of the Masonic Hall. This meeting was not largely attended owing to the absence of members from the city, and the extreme heat which has held our own in its grasp the past few weeks. The Treasurer Mrs. William Bible reported all bills paid. Mrs. Charley Mims, the faithful secretary of the Club caused all present to feel a thrill of pride when she mentioned that the good work of the W. I. C. was becoming known for and wide as letters recently received from Washington, Nashville, and Morristown could testify. This encourages the "faithful few" to keep on in the good work. As the chairman of the various committees were conspicuous by their absence no reports were made, save by the "Flower Committee" composed of the younger members. These girls have a collection of flower seed, and we shall hope next spring to see something done in the way of beautifying our school grounds.

Mrs. Blanche Anderson read a most excellent paper on "What we have accomplished in the last six months. The Club has a fine Tennis and Croquet ground, a comfortable rest room, and reading room, beautifully furnished with mission chairs and table, comfortable couches, dainty curtains, and pictures. An ideal resting place. There is quite a nucleus for a public library begun. The latest magazines, and papers both secular and denominational will be found there. While the club has not succeeded as yet in making Newport to "bloom and blossom as that rose" at least the face of her is cleaner than it was a few months back. We are still hoping that the Sanitary Committee will see to the placing of some kind of trash receptacles around the town, and persuading the citizens and house keepers to have this handled away at stated times.

A most enjoyable occasion was the recital on the evening of the 6th, when the "Bainonian Quartette," from Maryville, appeared, under the auspices of the Club.

Some of the things that will be agitated by the W. I. C's when the cooler days come, are "School Improvement."

Suppression of Bill posters, and Sign Boards, Sanitation in the Home. Domestic Problems. Pure Food Laws.

The Members of the Club have agreed that they will do all their shopping at the stores before six in the afternoon, thus giving the clerks and merchants a much needed respite, through July and August.

One 25-cent package of talcum powder Free with every \$1.00 worth of Rexall preparations, including Stationary, Perfumes and all Medicines. For cash only.—Smith's Corner Drug Store.

Frank Harris and family, of Boston, Mass., are the guests of Mr. Harris' parents, Mr. and Mrs. T. W. Harris, at Del Rio, after an absence from home of six years.

Master Frederick Graddon has returned from Loudon, where he has been the guest of his grandparents, Mr. and Mrs. Peyton Campbell. His grandfather returned with him.

THE WED THAT HELD

THE GREATEST IMPROVEMENT
in poultry fence construction ever known was made when electric welding was introduced. It rendered the death knot of the light, flimsy netting and of high poultry fences of all kinds. This radical change over old methods was made by the Pittsburgh Steel Company and was incorporated into its new celebrated "Pittsburgh Perfect" poultry fence. For high, strong, cattle, horse, and sheep fences and for lawns and poultry. This fencing is manufactured exclusively by electric welding. Electric welding also placed wire, chains and rings in the waste wire class.

"Pittsburgh Perfect" Poultry Fence

"Pittsburgh Perfect" poultry fences as well as all farm and lawn fences under this brand, are now being made from a special quality of open heart wire, manufactured in the immense addition to our mills recently built. It is now heavily galvanized by an improved process. All wire is of the same size as line wire, and is the superior of any poultry fence made. The quality of the open heart wire, compared to prior to the present steel, the galvanizing, applied by our special process, and the large wire, are all of vital importance in giving service and durability.

"Pittsburgh Perfect" Electrically Welded Fences are made in every height and weight for every use. These fences getting only "Pittsburgh Perfect" fence.
